

NEWS ON WATER WELL CHARITY

There are 664,369 Villages in the nation of India. Rural population is higher than the urban population (65.07%). A goal was set to reach as many villages possible with gospel in the 2nd half of the seventies. Pedalling the bike hundreds of villages was covered. One of those hot summer days the water I carried was spent. Stopped at a teashop and asked for a glass of water. I was handed a glass of liquid which looked like tea. I said I don't want tea but water. He told me that's water and showed me the nearby lake where he got it from. Water buffalos were cooling themselves off in the lake. Some of the ladies were washing cloths and some taking pots of the same lake water for drinking. I chose to go back home thirsty pedalling another 20 miles. Before I left the place did send a heartfelt prayer. Lord helps me to drill water wells for these villagers. And He graciously heard my prayers. Water on one hand Bible on the other.

God provided to Hagar and Ismail Genesis 21:19. children of God keep helping the needy.

44% OF ALL THE DISEASES IN India are waterborne. Prevention is better than cure. During the virus spread people were advised to wash their hands often. In many villages water is a rare commodity. The wells drilled were of much help to the people. 304 wells drilled over the years. \$2200 per well.

One of the best ways to teach others is: lead people from the known to the unknown. All people know the need for drinking water for life. Most people do not know the need and the availability of the living water. The message of the living water is shared at the well.

The woman at the well (John 4; 8-26) was presented the truth talking about water and leading to the living water.

It's very comforting to remind ourselves that He cares (1 Peter 5:7). Our care to provide potable water is comforting to the poor villagers. They care to listen to what we say.

Let your care for the thirsty (both for water and the gospel) are made known by drilling a well for them. Checks to be sent to world Bible School, P.O Box 3700, Visalia, CA 93278. Please earmark your checks for India water well.

Thanks

In Christ
