G

Get Your Slide On

By: Sam Dilbeck

Before coming to Brighton, I had never heard of ice blocking. I was from Texas and had rarely seen ice, much less people riding large chunks of it down grassy knolls. But now I have not only heard of and seen ice blocking, I have done it! Granted, I mostly fell over and tumbled last year, but maybe this year I'll be as adept as Kaden Dunham or at least Kevin. However, my favorite part of the Ice Blocking Get Together is the "get together."

Christians need to be together in. It is great to spend time in worship and Bible study, but it is also a great value to spend time recreating. It gives saints the time to invest in one another's lives, get to know each other better, and laugh together.

Sometimes our church family grows distant. Work, school, families, activities, and a thousand other cares pull us in different directions and strains our Christian bonds. It isn't a malicious decision, just natural decay due to busyness. However, as our Christian relationships weaken, the church as a whole weakens too.

Such decay can be avoided and even repaired through fellowship. Fellowship is a direct result of the love we have for one another that ties our hearts together (Col. 2:2). It is the love we share that welds our hearts together (Eph. 4:15-16). It allows us to know each other's triumphs and struggles. Fellowship becomes the foundation of our prayers for each other, the avenue of our encouragement, and the friendship for our journey.

It may sound like a lot of silliness—riding a block of ice down a grassy hill—but it is much more than the good time. It's a God time. So, this weekend cancel those boring meetings, skip the company softball game, and ignore the call of the road. Then head over to Community Park in Thornton and get your slide on.
